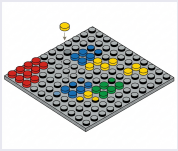
ASSEMBLY INSTRUCTIONS

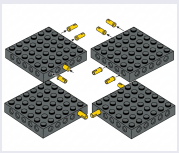
1 TILE PLACEMENT

Apply tiles following the grid pages in order (BP1, BP2…). Each circle indicates the legend number: find the matching color and place the tile. Work row by row from top to bottom.



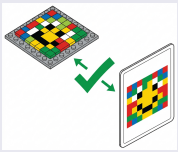
2 BACK STRUCTURE

Connect the 16 Technic 16×16 panels in a 4×4 grid using 72 dark grey pins. Place on a flat surface and press the pins all the way in: the structure must be perfectly flat.



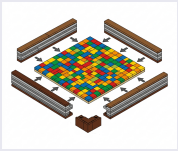
3 VERIFICATION

Before fitting the frame, compare the mosaic with the render on the cover. Check that colors are in the correct positions and that all panels are aligned without gaps.



4 FRAME

The next chapter contains the full diagrams. Fit the frame only after completing and verifying the entire mosaic: the pieces clip onto the outer perimeter of the Technic panels.



5 DISPLAY

The Technic back is compatible with standard wall hooks. Alternatively, use a display easel. Avoid prolonged direct sunlight to preserve colors over time.
